Executive Summary — Strategic Supply Chain Leadership

Pharmacist and Senior Supply Chain & Logistics Manager with 10+ years of experience architecting and directing end-to-end supply chain operations across complex humanitarian and development environments. I bridge the critical gap between **clinical healthcare delivery** and **logistics execution**, ensuring that life-saving medicines and essential supplies reach those who need them most.

As the designated **Focal Point** for ICRC Headquarters in Geneva and Regional Delegations in Amman and Nairobi, I have driven **pipeline optimization**, **forecasting coordination**, **staff development**, **quality management**, and **strategic implementation** across the organization. My work has directly impacted **21+ health facilities** across 5 governorates, managing **\$2M+ in inventory** with 99.5% accuracy, reducing lead times by 30%, and implementing ERP systems that cut discrepancies by 25%.

I build and lead high-performing teams of **15+ supply chain professionals**, fostering a culture of excellence, accountability, and continuous improvement. My approach combines **clinical insight**, **operational rigor**, and **strategic vision** to deliver measurable impact in even the most challenging environments.
